The Bazelon Center for Mental Health Law is the leading national legal-advocacy organization representing people with mental disabilities. Founded in 1972, the Washington D.C.-based nonprofit uses litigation, policy analysis, coalition-building and technical support for local advocates to advance and protect the rights of adults and children with mental illnesses or developmental disabilities and to promote their full participation in community life. Funding of this work comes primarily from grants by private foundations and gifts by generous individuals. For the development and distribution of this model law, we especially appreciate the support of the John D. and Catherine T. MacArthur Foundation and the Evenor Armington Fund.
