

National Disability Call-In Day

Wednesday, July 12, 2017

The Senate is planning a vote on a revised version of the Better Care Reconciliation Act next week. This week, we need to tell them that any bill that caps Medicaid and repeals the Medicaid Expansion is unacceptable. In partnership with the Consortium for Citizens with Disabilities and other disability advocacy groups, we are proud to co-sponsor the National Disability Call-In Day! Join people with disabilities, families, and advocates around the country as we make sure our senators and governors have their phones are ringing off the hook with opposition to the Senate healthcare bill.

TAKE ACTION and contact your Senators! [Helpful scripts are available here.](#)

We NEED your voice more than ever!

Thank you again for all of your advocacy so far. We can defeat this bill—with your help!
